

I am highly disappointed to hear an attempt to take away a service I pay for. XM Radio is not for everyone but it is for me! I travel cross country and hate trying to find radio stations. I heard the same song 26 times one day traveling with regular radio. That's why I selected XM Radio. I also think that the new weather and traffic service XM is providing is a great addition not only for convenience but for safety. I wish they had weather for every area of the country. When traveling it's hard to find a local station that provides continuous weather when a dangerous storm is approaching. I would rather pay XM to keep me informed than be caught in a dangerous storm. I paid for my right to have the option to listen to XM Radio. I still listen to local stations but I have the choice and I pay for that choice. Please do not take away a service that keeps me informed and helps provide safe travel for me. Local stations are getting paid just like XM but it's the advertisers paying for the service versus the consumer. Make the right decision, the consumer's decision - keep XM Instant Weather and Traffic on air!
